

Report on

Faculty Development Programme (FDP)

**"Empowering Research with AI- Tools and Techniques for Academics
under the aegis of AIU- AADC- MSRUAS**

Resource Persons:

- 1. Dr. Prasad Kulkarni, Founder & Director, SAIX AI Collaborative, Belagavi**
- 2. Dr. Bharatrihari Pandiya, National Forensic Sciences University,
Ahmedabad**

Mode of conduct: ONLINE

Organized by:

**Centre for Professional Development @
M S Ramaiah University of Applied Sciences**

Nov 24th- Dec 4th 2025

Email Circular

FDP on “Empowering Research with AI” – Invitation to Register & Participate

Mrs. Roopa S Patil

Dean Group;Directors

Dr. Kuldeep K Raina;Office of the Registrar;Dr. G S Venkatesh;Dr. R V Ranganath;Mr. Manish Subodh;**everyone**

Respected Deans and Directors,

Greetings from CPD!

We are pleased to launch our next **Faculty Development Programme (FDP)** under the aegis of **AIU- AADC- MSRUAS** titled "**Empowering Research with AI- Tools and Techniques for Academics.**" Schedule for the FDP is 24th Nov - 4th Dec, post lunch sessions.

Dr. Prasad Kulkarni of 'SAIX AI' is the main resource person for this programme. **The FDP will be conducted online.**

The trainer has assured that participants will gain practical insights, including guidance on converting a Master’s thesis, Doctoral thesis into a **camera-ready paper for SCOPUS journals.**

This cohort is specifically for Faculty Members of Engineering, Art & Design, Management & Commerce, Social Sciences, Natural Sciences and Hospitality Management.

A separate cohort is being planned for Bio-Medical Sciences and Law shortly.

However, **the FDP is open to all faculty members across the University, including Doctoral Scholars.**

We request Doctoral Supervisors to encourage all their Scholars to attend this FDP.

FDP Schedule:

- **MODE of Conduct: ONLINE only**
- **Start Date:** 24th November 2025
- **End Date:** 4th December 2025
- **Actual Dates of FDP:** Nov 24th ,25th ,26th ,27th ,28th ,29th and Dec 1st , 2nd, 3rd, 4th

- **Time:** 2 :00 -5:30 pm (with a 20 mins break)
- **Link to register :** <https://forms.gle/ZajUsq8LD4vWt7Cr9>
- FDP Contents: Please refer attached file

We request you to kindly **register before 20th of November 5 PM** and motivate your colleagues to participate and make the most of this opportunity.

Deans and Directors are requested to nominate faculty members who will have to register using link <https://forms.gle/ZajUsq8LD4vWt7Cr9>.

Please note: There is no explicit registration fee for participants . But, the cost of registration has to be taken into accounts of FDP cost by respective faculties.

Thanks & Regards,

Roopa.S.Patil

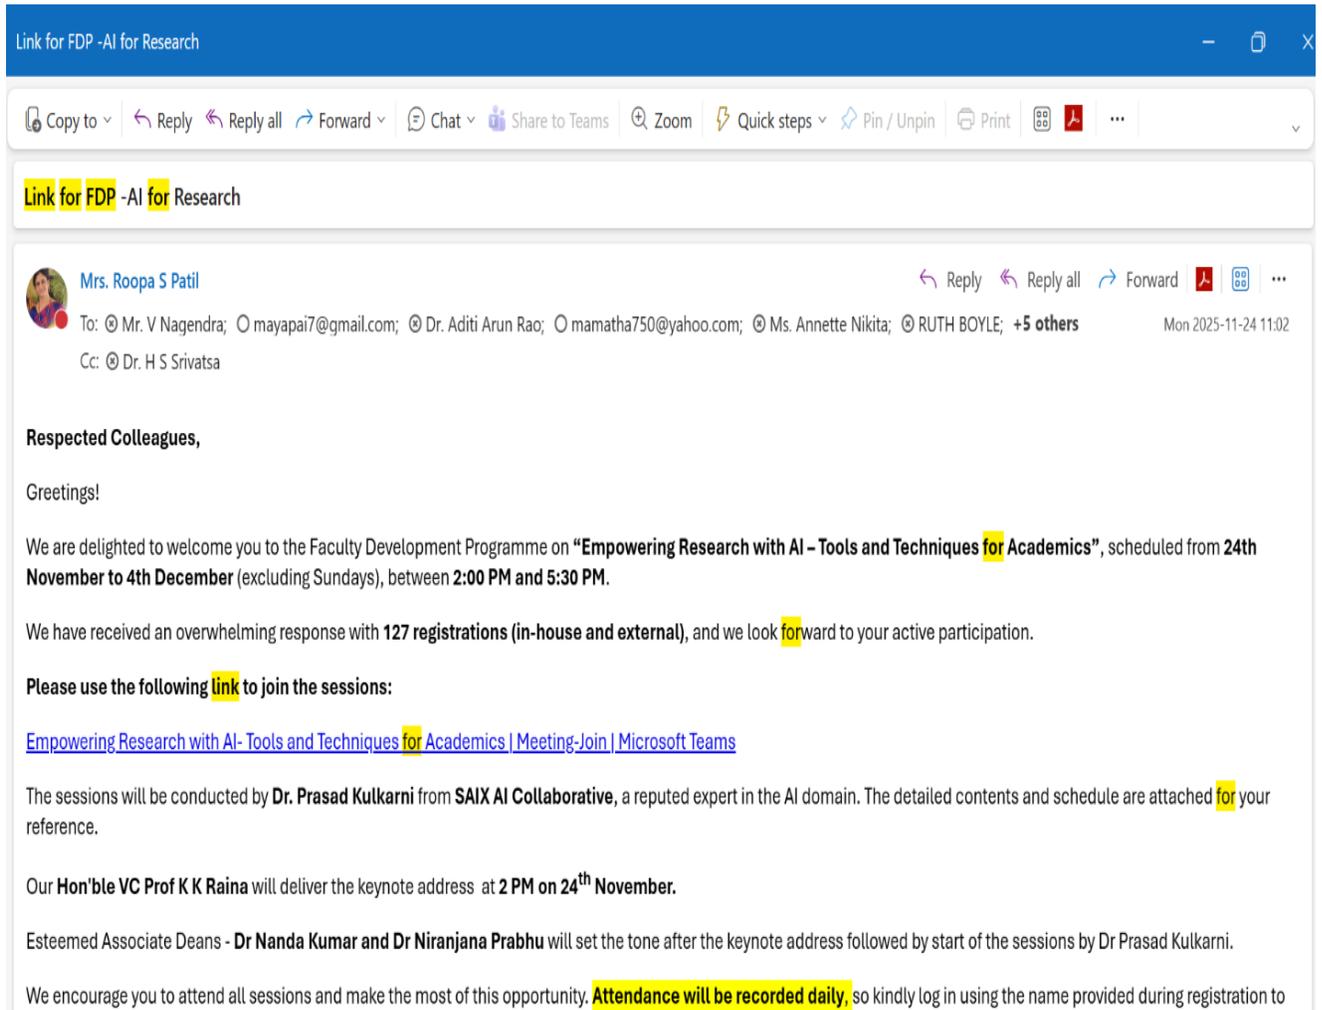

Trainer — Center for Professional Development

University House, Gnanagangothri Campus, Bangalore

To: Mr. V Nagendra; mayapai7@gmail.com; Dr. Aditi Arun Rao; mamatha750@yahoo.com; Ms. Annette Nikita; RUTH BOYLE; +5 others Mon 2025-11-24 11:02
Cc: Dr. H S Srivatsa

Respected Colleagues,

Greetings!

We are delighted to welcome you to the Faculty Development Programme on “**Empowering Research with AI – Tools and Techniques for Academics**”, scheduled from **24th November to 4th December** (excluding Sundays), between **2:00 PM and 5:30 PM**.

We have received an overwhelming response with **127 registrations (in-house and external)**, and we look forward to your active participation.

Please use the following link to join the sessions:
[Empowering Research with AI- Tools and Techniques for Academics | Meeting-Join | Microsoft Teams](#)

The sessions will be conducted by **Dr. Prasad Kulkarni** from **SAIX AI Collaborative**, a reputed expert in the AI domain. The detailed contents and schedule are attached for your reference.

Our **Hon'ble VC Prof K K Raina** will deliver the keynote address at **2 PM on 24th November**.

Esteemed Associate Deans - **Dr Nanda Kumar** and **Dr Niranjana Prabhu** will set the tone after the keynote address followed by start of the sessions by Dr Prasad Kulkarni.

We encourage you to attend all sessions and make the most of this opportunity. **Attendance will be recorded daily**, so kindly log in using the name provided during registration to

Faculty Development Program on
**EMPOWERING RESEARCH WITH
AI - TOOLS AND
TECHNIQUES FOR ACADEMICS**

Organized by:
AIU - AADC - MSRUAS
in collaboration with

Workshop Overview:

Title: Advanced Research Writing, AI-Augmented Methods, and SCOPUS Publication

Mastery Duration: 10 Days (30 Hours)

Mode: Online

Platform: Microsoft Teams

Number of Resource Persons: 2

Dr. Prasad Kulkarni, Founder & Director, SAIX AI Collaborative, Belagavi

Dr. Bharatrihari Pandiya, National Forensic Sciences University,

Ahmedabad Target Participants: Faculty from Engineering,

Management, and Commerce

Detailed Schedule:

Day 1	24-11-2025	Title and Abstract	3T framework PMFOK abstract	2.00pm to 5.30 pm
Day 2	25-11-2025	Journal Identification Brainstorming	Various Publisher and Mind mapping Knowledge	2.00pm to 5.30 pm
Day 3	26-11-2025	Introduction	Opening statement	2.00pm to 5.30 pm
Day 4	27-11-2025	Introduction models	CARS models Funnel approach	2.00pm to 5.30 pm
Day 5	28-11-2025	Literature review	PRISMA modelling	2.00pm to 5.30 pm
Day 6	29-11-2025	Literature review	Meta analysis Bibliometric	2.00pm to 5.30 pm
Day 7	01-12-2025	Methods/ experiments	Simulations, Philosophy	2.00pm to 5.30 pm
Day 8	02-12-2025	Results and discussion	Engineering methods	2.00pm to 5.30 pm
Day 9	03-12-2025	Conclusions	Research implication	2.00pm to 5.30 pm
Day 10	04-12-2025	Referencing, Plagiarism and Ai	APA 7 / IEEE format	2.00pm to 5.30 pm

Topics/ Tools

AI Tools and Models Integrated in the Workshop

1. Large Language Models (LLM)
2. Multimodal LLMs (MLLM)
3. Agentic AI
4. Agentic Workflows for Research Automation
5. Mixture of Experts (MoE) Models
6. Small Language Models (SLM)

These models will be demonstrated for:

- Literature generation
- Gap identification
- Visual analysis
- Data analysis augmentation
- Writing assistance
- Bibliometric modelling
- Workflow automation

Types of SCOPUS-Compatible Papers Covered

1. Qualitative Research Papers
2. Quantitative Research Papers
3. Bibliometric Analysis Papers
4. Book Chapters
5. Case Studies (Local Context)

Summary of Faculty Development Program

No. of Participants: 115

Date: 24th Nov – 4th Dec 2025

Venue: Microsoft Teams ONLINE, Ramaiah University of Applied Sciences

Target Participants: Faculty from Engineering, Management, and Commerce

Introduction: The exponential growth of digital data and advancements in computational technologies have significantly influenced the research ecosystem. Artificial Intelligence (AI), encompassing machine learning, natural language processing, and data analytics, has become an essential support system for modern researchers. AI enables researchers to process vast amounts of information, identify patterns, generate insights, and improve the quality of research outputs.

In recent years, universities and research institutions have increasingly adopted AI tools to support faculty members and research scholars. Recognizing this need, a 10 Days Online FDP on “Using AI for Research” was organized to equip participants with knowledge and hands-on experience in applying AI tools responsibly and effectively in academic research.

Description: A 10-day Faculty Development Program (FDP) titled “**Advanced Research Writing, AI-Augmented Methods, and SCOPUS Publication Mastery**” was conducted with the objective of enhancing faculty competence in high-quality research writing, AI-enabled research workflows, and publication in SCOPUS-indexed journals. The program comprised **30 hours**, with **three hours of engagement each day**, and was delivered in an interactive online mode through **Microsoft Teams**.

The FDP was facilitated by **two eminent resource persons**:

Dr. Prasad Kulkarni, Founder & Director, SAIX AI Collaborative, Belagavi, and

Dr. Bharatrihari Pandiya, National Forensic Sciences University, Ahmedabad.

The sessions were structured to systematically guide participants through each section of a research manuscript. Day 1 focused on **Title and Abstract formulation**, introducing frameworks such as **3T and PMFOK**. Day 2 addressed **Journal Identification**, covering publisher ecosystems and mind-mapping techniques. Days 3 and 4 dealt with **Introduction writing**, including opening statements, the **CARS model**, and the funnel approach.

Days 5 and 6 emphasized **Literature Review development**, introducing **PRISMA modelling, meta-analysis**, and **bibliometric techniques**. Day 7 focused on **Methods and Experiments**, covering simulations and research philosophy. Day 8 addressed **Results and Discussion**, particularly engineering-oriented analytical methods. Day 9 focused on **Conclusions and**

Research Implications, and Day 10 concluded with **Referencing, Plagiarism, and Ethical AI use**, including **APA 7 and IEEE formats**.

A key strength of the FDP was the integration of **advanced AI models**, including **Large Language Models (LLMs), Multimodal LLMs, Agentic AI, Agentic Workflows, Mixture of Experts (MoE), and Small Language Models (SLMs)**. These tools were demonstrated for **literature generation, research gap identification, visual and data analysis augmentation, writing assistance, bibliometric modelling, and workflow automation**.

The program also covered multiple **SCOPUS-compatible publication types**, including **qualitative and quantitative research papers, bibliometric analysis papers, book chapters, and locally contextualized case studies**.

Overall, the FDP significantly enhanced participants' research writing skills, understanding of AI-augmented research methodologies, and readiness to publish in high-impact SCOPUS-indexed outlets, thereby contributing to improved research quality and academic productivity.

Summary of Faculty Feedback on the FDP

Overall faculty feedback for the **10-day FDP on Advanced Research Writing, AI-Augmented Methods, and SCOPUS Publication Mastery** was **highly positive**, reflecting strong satisfaction with the content relevance, delivery, and outcomes. A large majority of participants **agreed or strongly agreed** that the sessions were relevant to researchers, well-organized, smoothly delivered, and effective in meeting their academic and research needs.

Faculty widely appreciated the **structured progression of sessions**, covering the complete research lifecycle—from title and abstract formulation to referencing, plagiarism management, and ethical use of AI. Sessions on **literature review (PRISMA, bibliometric analysis, meta-analysis), journal identification, AI-assisted manuscript drafting, qualitative and quantitative paper writing, and bibliometric tools such as R, Biblioshiny, and Bibliometrix** were repeatedly identified as the most useful. Many respondents highlighted that **every session offered unique learning**, with the first few days and literature review-related sessions receiving particularly strong appreciation.

The **resource persons**, especially **Dr. Prasad Kulkarni**, received **consistently high ratings (predominantly 5-star)** for clarity, depth of knowledge, patience, and practical demonstrations. **Dr. Bhartrihari Pandya's** sessions, particularly on bibliometric analysis, were also rated positively. Participants valued the **hands-on orientation and real-time demonstrations of AI tools**, which helped them transition from limited awareness to functional AI literacy.

A significant outcome of the FDP was the **enhanced confidence in using AI tools for research**. Most participants reported being **very confident or extremely confident** post-FDP, with many indicating plans to **complete and submit a research paper within one week to one month**

using the tools introduced. This reflects the program's strong impact on immediate research intent and productivity.

The **Centre for Professional Development** received overwhelming appreciation for organizing a useful and relevant FDP, with many respondents encouraging continuation of similar initiatives. Constructive suggestions included: conducting **offline or hybrid sessions, spacing the program over fewer or staggered days**, offering **domain-specific tracks (especially medical and health sciences)**, increasing **hands-on time**, providing **tool-mapping frameworks**, organizing **follow-up or mentorship sessions**, and clarifying **publisher policies on ethical AI usage**.

In summary, faculty feedback indicates that the FDP was **highly effective, timely, and impactful**, significantly improving research capability, AI awareness, and publication readiness across Engineering, Management, Sciences, and Medical disciplines.

The screenshot displays a Zoom meeting interface. The main window shows a presentation slide with a flowchart titled "Empowering Research with AI: Tools and Techniques for Academics". The flowchart illustrates the relationship between various AI tools and their impact on research outcomes. The tools listed include:

- 7751: Staff on services
- 7752: Blank of capacity to us
- 7753: EIT code effective
- 7754: Use of post services
- 7755: Order construction area
- 7756: Load area variation
- 7757: Use of badges
- 7758: Major Introduction
- 7759: Content capturing
- 7760: Academic evaluation
- 7761: Data Substitution

The flowchart shows these tools feeding into three main categories:

- Supply Chain Disruption (SCD)**
- Strategic Empowerment (SE)**
- Core Support & Policy Alignment (CSA)**

These categories then lead to the final outcome: **Final Performance (FP)**.

The Zoom meeting chat window is visible on the right, showing a list of participants (DS, DN, S, DH, DK, DM) and a chat history with the following messages:

- DK: paperpile is paid app sir
- DS: Good evening participants. Pls do clarify any doubts now
- DS: We will also be sending you a feedback form in email by tomorrow morning. Please do provide your feedbacks. Thanks
- MP: Fantastic sessions sir. Appreciate your knowledge sharing. Thank you

The meeting title is "Empowering Research with AI: Tools and Techniques for Academics". The time shown is 02:53:20 on 12/4/2025.

Annexure: AI Tools Used in the FDP and Their Research Purpose

AI Tool	Specific Purpose in Academic Research & Publishing
ChatGPT	Idea generation, research design support, literature summarisation, drafting manuscripts
Claude	Long-document analysis, thesis editing, argument coherence
Gemini / Google AI Studio	Multimodal research assistance, data interpretation, code-text integration
Perplexity	Evidence-backed literature search, rapid scoping reviews
NotebookLM	Managing PDFs, notes, transcripts; grounded summarisation
Lens.org	Patent–publication linkage, scholarly analytics
OpenAlex.org	Bibliometric data, author/institution analysis
Voyant Tools	Text mining, corpus and discourse analysis
Orange Data Mining	Data preprocessing, machine learning, visual analytics
Google Colab	Python-based data analysis, reproducible research
Scispace Agent	Paper explanation, methodology clarification
PaperReview.ai	Manuscript quality checks, reviewer-style feedback
Manus.ai	Agentic research workflows and automation
Chattube.io	Extracting insights from academic videos
Bypass.hix.ai	Rewriting AI-generated content (ethical use advised)
Google Quantum AI	Advanced computational and quantum research
Google Engross	Academic focus and productivity support
