About CEAPS

Established in October 2022, the Centre of Excellence for Andragogical and Pedagogical Sciences (CEAPS) is SGT University's dedicated hub for faculty development, pedagogical innovation, teaching, learning, assessment, and educational leadership.

Since its inception, CEAPS has delivered 120+ faculty development programmes, workshops, and training sessions, reaching 4,600+ faculty members across disciplines. Through a blend of internal expertise and national and international experts, CEAPS promotes global perspectives and institutional best practices in education.

Its key focus areas include learner-centred pedagogy, outcome-based education, assessment, curriculum design, leadership, mentoring and coaching, communication skills, andragogy, technology and AI in education, student engagement, and educational research.

CEAPS also fosters a culture of mentorship, peer learning, reflective practice, and communities of practice, strengthening SGT University's commitment to educational excellence, lifelong learning, and continuous professional growth.

ABOUT THE PROGRAMME

Higher education is changing rapidly, with diverse learners, evolving expectations, digital technologies, Artificial Intelligence, and the growing emphasis on outcome-based education. Faculty members are increasingly expected to move beyond content delivery and facilitate learning, inspire curiosity, encourage critical thinking, and create inclusive and engaging learning environments.

This five-day Faculty Development Programme is designed to support teachers in making this transition from content experts to effective facilitators of learning. Through theory, hands-on activities, reflection, practice and peer feedback, participants will explore learner engagement, learner diversity, technology and AI, active learning, inclusive pedagogy, outcome-based lesson planning and microteaching.

Who is it for?

CEAPS modules and programs are designed for educators across all **Higher Education Institutions (HEIs)** seeking to enhance their teaching methodologies and create a more engaging learning environment.

PROGRAMME LEARNING OUTCOMES

1. Develop positive teacher–student relationships through effective facilitation and communication skills.
2. Create psychologically safe, inclusive, and learner-centred classroom environments.
3. Apply principles of adult learning and learner psychology to enhance student engagement.
4. Manage diverse learner needs and challenging classroom situations using supportive strategies.
5. Integrate digital technologies and Artificial Intelligence tools effectively into teaching-learning processes.
6. Design active learning experiences using peer learning, experiential learning, and differentiated instructional approaches.
7. Construct outcome-based lesson plans aligned with intended learning outcomes.
8. Demonstrate effective teaching and facilitation skills through microteaching and peer feedback.

DAY -1 (7 September 2026)**Ms. Monika Sharma**

Assistant Director,
CEAPS

Session Title:

Building Rapport with
Learners & Classroom Engagement

09:00–11:30 AM**Mr. Rohan Bhardwaj,**

Lead, Learning & Development,
SGT University

Session Title:

Faculty Adaptive Mindset
